HRIDMAJHARE- TINT Music Club

ABOUT THE CLUB:

HRIDMAJHARE, the official music club of Techno International New Town, is where students and teachers come together, learn together, jam together, and together they make music— of varied genres and with varied flavours. One of the most prestigious and popular clubs of the Institute, Hridmajhare- TINT Music Club encourages various forms of cultural and artistic expressions and creates a sense of cultural harmony among the students who come here from diverse backgrounds.

Taking the First Steps:

The journey began almost a year back, when a handful of students, with a bit of hesitation and a lot of passion, approached some faculty members of this technical institute, with a request to form a music club of the College with the official approval of the appropriate authorities. Since then, although there were periods of lull and moments of zeal, there was, most importantly, no looking back.

TINT PHOTOGRAPHY CLUB

About the Club:

TINT Photography Club is the official photography club of Techno International New Town, where the photo enthusiasts of the college try to nurture their creativity and disclose the subtle richness of reality through their images. It is one of the most popular clubs of the college and acts as a mantle to voice the feelings and ideas of students through photography, which is amongst the most modern visual art forms.

Taking the first steps:

The honourable Director of Techno International New Town, Prof. (Dr.) R.T. Goswami and the venerable Registrar of the college, Prof. (Dr.) S.P. Ghosh have always nurtured an environment in the college where culture with all its branches can flourish radiantly. It was their endeavour to maintain such an environment that led to the germination of the idea for a photography club in the college. This idea gained ground as our beloved MD Dr.

TINT Photography Club | Photography Club

Satyam Roychowdhury has always encouraged the creation of platforms so that students can express themselves outside their academic activities. He lent his support to the initiative of our honourable Director and Registrar.

The shutterbugs, who were until then just a hapless bunch of dreamers, on their part, were overjoyed that their college was creating this platform to help them propagate their unique art form, learn, and reel in others who are interested in it. Students across departments came together to be part of this initiative with great unity. Despite their varied backgrounds, they all had one thing in common – their passion for photography.

In March 2019, the journey of the club began with its inauguration during the cultural fest of the college, and since then, there has been no looking back. The gratuitous efforts of the students and faculty and the patronage of the appropriate authorities have not only bolstered the morale of the students but also motivated them to be involved in various initiatives of the club. The Head of the Basic Science and Humanities (BSH) Department, Prof. (Dr.) Mala Mitra is another pillar of the club who has been a constant source of inspiration and aided the founders of the club in rendering direction to the dreams of the interested students.

The founding principle:

Life is built up with a tableau of experiences and perceptions that make us what we are. Therefore, while the college primarily seeks to excel in the field of technical disciplines, it ensures that the individuality and creativity of the students are kept alive by nurturing the passion within. It is with this vision that the club began its long walk. Be it nature, wildlife, portrait, street or fashion photography, advertisement, journalism or any other camera skill – the club yearns to aid students in every possible way to nurture their skills and yet keep alive the individuality of each student in terms of style.

Objectives of the Club:

To help achieve the vision, the mission of the club is:

- To provide a conducive ambience and platform for the students to engage in photographic activities and thereby exchange ideas and share experiences.
- To enable students to nurture the 3D's (discover, develop, deploy) of creative skills and improve the techniques associated with the art of photography through various events, photo walks and workshops.
- To help them manifest the artist within.
- To encourage a holistic development of students.

Activities already conducted by the club:

- Photo Exhibition cum Intra-college photography competition, DRISTI (Organised by the CSE Department in association with the Photography Club)
- Photo Sessions with eminent photographers.
- Event Photography (throughout the year for various college events)
- Intra-club photography competition on various themes like "Monsoon Moments", "Autumn Symphony, "Nature" and many others.
