

Entrepreneurship Development Cell

Established in 2016, the Entrepreneurship Development Cell at TINT aimed to foster a culture of entrepreneurship among students. Until 2021, the Cell was fully functional, conducting regular classes of two hours each week for second and third-year students. It also organized regular talks, seminars, and workshops on entrepreneurship, providing valuable opportunities for students to learn and engage with entrepreneurial concepts and practices.

Entrepreneurship Development Cell Policy

Since years policy-makers have been debating how to give an impetus to manufacturing in India and make India a Global Manufacturing Hub. Owing to address this issue our Prime Minister, Mr. Narendra Modi, launched the '**Make in India**' campaign to facilitate investment, foster innovation, enhance skill development, protect intellectual property & build best in class manufacturing infrastructure. The "**Make in India**" initiative is based on **four pillars**, which have been identified to give **boost to entrepreneurship in India**, not only in manufacturing but also other sectors. New Processes: 'Make in India' recognizes 'ease of doing business' as the single most important factor to promote entrepreneurship. So there is a need of the present day to emphasize the **role of education in catalyzing Entrepreneurship**, especially in the highly skilled and knowledge-driven sectors. Though entrepreneurship is not new to India, Entrepreneurship as a subject in Technical/Technology institutions and entrepreneurship as a career option is gaining momentum only recently as the emergence of knowledge based technopreneurs all over the world. Though entrepreneurship forms an important subject in Science & Technology studies, but in engineering, it does not form a substantial part of the curriculum. With a view to create awareness among faculty and students of Engineering and Management courses about various facets of entrepreneurship as an alternative career option the 'Entrepreneurship Development Cell' is formed at TICT with the following objectives:

1. To create Entrepreneurial culture in TICT
2. To act as an institutional mechanism for providing various services including information on all aspect of enterprise building to budding entrepreneurs
3. To catalyse and promote development of science and technology knowledge-based enterprises and promote employment opportunities in the innovative areas

Role of Entrepreneurship Development Cell

The role of Entrepreneurship Cell, TICT is to create awareness among faculty and students of this institute about various facets of entrepreneurship as an alternative career option.

Function & Responsibilities of Members of Entrepreneurship Development Cell

1. To conduct Entrepreneurship Awareness/ Development Programmes on full-time/part-time basis.
2. To support skill development activities particularly catering to specific areas of requirement in that region.
3. To provide a platform to take-up 'Entrepreneurship' as an alternative career.
4. To introduce the concept of entrepreneurship in curricula at degree level.

Entrepreneurship Development Cell

Dated: 26.08.2020

Minutes of the Meeting held in the Conference Room on 20/08/2020

The following resolutions were adopted in the meeting

1. All members approved the minutes of the last meeting held on 19th August'2020.
2. Dr. A. Patra informed that Wadhvani Foundation give a proposal to start an online course on entrepreneurship for TINT students The course is divided in two part as Foundational and Advance course and that will be conducted in Odd and Even semester respectively. Dr. Patra also explained that in this course, the students will learn about themselves, the risks and rewards in choosing entrepreneurship as a career option, and how to identify new business opportunities and quickly validate them by building a series of prototypes of their product/service and test it with an initial set of customers.
All the members unanimously agreed to start the course on the entrepreneurship with effect from this semester. It was also decided initially this course will be offered to the students of 3rd Semester.
3. Dr. A. Patra also informed that Mr. Sandipan Ghosal of CSE department has already completed the TA training course offered by Wadhvani Foundation. All the members decided to select Mr. Sandipan Ghosal as coordinator of the Wadhvani Foundation course.

The meeting ended with vote of thanks to the Chair.

APPROVAL LETTER

Date: 2nd September 2020

To,
Swati Mittal,
Chief Financial Controller,
National Entrepreneurship Network ("NEN"),
Bengaluru – India

Subject: Approval letter for enlisting and rolling out WE NEN ("WE") courses.

Dear Swati,

I, Dr. R. T. Goswami-Director of Techno International New Town ("TINT") is glad to inform you that we have approved the teaching and learning of both the WE courses (Advanced and Foundational) on our campuses for the academic year 2020-2022 to the students of 3rd & 4th Semester of the Engineering & Management. We have decided that the WE Advanced course will be credited with 40 credit points (as per MAKAUT MAR Policy) and of 36 hours in the semester/batch. Similarly, the WE Foundational course will be credited with 40 credit points (as per MAKAUT MAR Policy) and of 36 hours in the semester/batch.

We appreciate that through customized learning programs the objective of WE courses is to empower students with an entrepreneurial mindset and business skills, support aspiring entrepreneurs with validated ideas to start meaningful ventures, and build institutional capacity to run world-class entrepreneur education programs. This would help the students in securing superior job prospects and long-term entrepreneurship.

To support NEN's endeavor, TINT intends to provide all reasonable support by accepting and making all reasonable efforts to adhere to the Roles and Responsibilities, provided along with this letter 'TINT's Role and Responsibilities'.

Additionally, there are certain expectations from TINT's TA who will be delegated with the responsibility of disseminating the WE courses' teaching to TINT's students. We realize that dissemination of courses should be structured around certain factors that have to be followed by TINT's TA. Such aspects have been laid out in a Letter of Undertaking that will be shared with the faculty after he/she has completed the training.

In conclusion, we fully support the initiative, and hence please treat this letter as an intention for entering into a partnership to initiate the aforementioned engagement. We sincerely hope that this relationship will be beneficial to both NEN and TINT in achieving their aims and objectives.

Please let us know if you need additional information.

Thank you.

Yours sincerely,

PARTNER INSTITUTE'S ROLES AND RESPONSIBILITIES

This document lists out the Roles and Responsibilities of Techno International Newtown (Formerly known as Techno India College of Technology) hereinafter referred to as the "Partner Institute" concerning both the WE course curriculum.

The Roles and Responsibilities that the Partner Institute has to adhere to for ensuring the success of the NEN Program ("Program") are as follows:

1. Fully adopt the Program and its associated curriculum in the following manner:
 - Permit students to form and run Practice Venture (PV) in groups of 2-5 as "real-venture" with financial transactions and profit motives. PV form the cornerstone of NEN's offering and is a requirement to deliver the course.
 - Should have published the information about offering of Wadhvani courses on their website/brochures/fliers/courses offered list on the noticeboard, before a faculty is approved for NEN training.
 - 100% of the WE NEN courses' content and related assessments shall be delivered via LearnWISE.
2. Strong evangelist faculty member(s) appointed, trained and NEN certified to run course(s):
 - The faculty member should either be a senior or junior faculty, Teaching Assistant (TA), or alumni who have experience in teaching.
 - The faculty member(s) trained by NEN should have deep knowledge and skill in entrepreneurship building and other subjects related to it.
 - If such faculty is not available or does not qualify, a Partner Institute funded visiting or adjunct faculty appointed for this purpose shall be provided.
 - To be able to disseminate the WE NEN curricula, the faculty is required to clear the online and face to face tests that are conducted by NEN. If the program rollout is delayed or canceled due to the inability of the faculty to clear the tests conducted by NEN, the Partner Institute shall not hold NEN liable.

TECHNO INTERNATIONAL NEW TOWN

(Formerly known as Techno India College of Technology)

Block - DG 1/1, Action Area 1, New Town, Kolkata - 700156, West Bengal, India

Contact: +91-33-2324-2050/2090/2091 • <https://tint.edu.in> • info@tint.edu.in

- It is the responsibility of the Partner Institute to conform to all requisites to facilitate faculty training and registration by NEN on LearnWISE. This training will be at the charge of a nominal registration fee. Such fee may either be funded:
 - By the Partner Institute;
 - By NEN, provided the Partner Institute ensures the cost of accommodation and logistics of NEN trainers; or
 - A conglomerate of institutes enrolled from the same region as Partner Institute, which decides to take the NEN trainer's training together.
 - The classes may also be LIVE and run remotely by the WE NEN master trainer in specific schedules catering to multiple colleges at a time (1:N model).
 - The Partner Institute shall provide for the necessary infrastructure required to run the Program:
 - At least 10 Mbps of dedicated wired internet connection in the classroom,
 - Dedicated classroom (preferably smart) with cluster seating or a classroom seating arrangement,
 - 2 dedicated laptops for main projection, plus one laptop for each student/student group,
 - Projector,
 - Speakers – 3 JBL extreme or similar,
 - 3 cordless Mic or mixer,
 - Camera – Logitech HD pro webcam – 2 nos., for complete classroom view, and
 - Power back-up.
 - Engage students in classroom activities as necessary to learn effectively which shall be measured through students' scores in assessments.
 - Keep NEN apprised of the students that are showing a strong inclination and aptitude towards start-up regularly.
 - Mentoring support for students' PVs which is a mandatory capstone project.
3. Adopt WE NEN's built-in assessments as a mandatory part of overall course assessments including the quizzes, assignments, and capstone/PV project with a weightage of 100% for final credits of the program. Additionally, NEN may provide for a paper-based assessment if the Partner Institute requires to have the assessments on paper.
4. Campus management and leaders, for this Program, will work to apprise all relevant stakeholders within the institute about the key terms of the Program so that there is adequate and timely support to the faculty within their departments and their institutes.

5. Management, other relevant leaders and faculty members should have an open communication channel with the NEN regional managers and regional head to facilitate problem-solving and support for the smooth running of the Program.
6. The Partner Institute shall facilitate students to meet real-life entrepreneurs, arrange field visits for the students to successful startups in similar space as their own PVs.
7. Partner Institute shall nominate a Coordinator, from faculty or otherwise, who would coordinate with NEN and will be responsible for all the things related to running the course smoothly for this Program. He/She shall be the main point of contact (POC) for NEN related to every activity concerning this Program.
8. The Partner Institute shall facilitate students to meet real-life entrepreneurs, arrange field visits for the students to successful startups in similar space as their own PVs.
9. Partner Institute will not copy or reproduce in any form, NEN's intellectual property.
10. Partner shall provide NEN with all required support to track the progress of the Program.
11. The Partner Institute shall not be permitted to charge any fees to the students, for granting to them access to and use of, LearnWISE. However, notwithstanding the foregoing, the Partner Institute may recover, by way of fees or other charges, from the students, the costs and expenses incurred by it in making LearnWISE available to such students, such as the costs incurred in relation to faculty, the IT infrastructure, etc.

The TINT assures NEN that it will follow the Roles and Responsibilities mentioned hereinabove.

To,
Swati Mittal,
Chief Financial Controller,
National Entrepreneurship Network ("NEN"),
Bengaluru – 560 066

Subject: Approval letter from BOS / AC/ SENATE for running Foundational and Advance Course offered by Wadhvani Foundation – NEN.

Respected Madam,

This is to bring in your kind notice that we had our Academic Committee meeting held on 14th September 2020; and decided by the members to start the above mentioned course from September onwards through online mode.

In this regard Prof. Sandipan Ghoshal has undergone the TA training offered by your foundation too.

We shall offer the Foundational course first to our Management and Engineering students as Elective, suggested by of affiliated University as a "Mandatory Additional Requirement" to get a B.Tech or MBA Degree, they will be awarded 40 points or 4 Credits. During next Semester they will be offered the Advance Course.

We are sending the soft copy of the class routine as an evidence, rest if anything is required we will be able to share once the college starts in normal mode.

Please cooperate with us so that we can start the class.

Thank you.

Regards.

Action Taken Report (ATR)

Resolutions of the meeting	Actions Taken
1. It was decided that two students from each department who have a flair of entrepreneurship will be selected by the respective ED Cell member for attending the PMYUVA program organised by Rajendra Mishra School of Engineering Entrepreneurship, IIT Kharagpur to be held on 30 th & 31 st July and 6 th & 7 th August, 2018 at Techno India Management Studies Building, DN 25, Sector V, Kolkata 700091.	1. Total 29 students from different departments were attended the program held on 30 th & 31 st July and 6 th & 7 th August, 2018. Students feel that this program is very useful as they got detailed information about this centrally sponsored Scheme on entrepreneurship education and training being implemented by the Ministry of Skill Development and Entrepreneurship, Government of India.
2. It was discussed and finalized that all ED Cell members will find out the students of their respective department having some Entrepreneurial Ideas with Proof of Contacts and send their names to attend the PRISM program organised by Rajendra Mishra School of Engineering Entrepreneurship, IIT Kharagpur to be held on 3 rd August, 2018 at Techno India Management Studies Building, DN 25, Sector V, Kolkata 700091.	2. Total 21 no of students (CE: 07, ME:02, AEIE: 02, ECE: 02, EE: 08) attended the workshop on PRISM and represented their ideas to the experts from IIT Kharagpur. Followed by this workshop six groups (CE: 01, ECE: 01 & EE: 04) have sent their detailed SOP (Standard Operating Practices) based on their POI (Proof of Content) presented on 3 rd August, 2018 to IIT Kharagpur. Among these six groups 4 were selected to attend the workshop on PRISM at IIT Kharagpur and show their prototype to the experts on 15-11-18. Two groups were got applause for their innovative ideas.
3. It was deliberated that Prof Abhijit Patra and Prof SushmaVerma will attend the 2-week FDP organised by Enterprise Development Cell, Kolkata from 3 rd -14 th Dec, 2018 and 7 th - 18 th January, 2019 respectively.	3. Both Prof. Abhijit Patra and Prof. SushmaVerma attended the FDP and submitted their reports along with participation certificates on 26/12/18 and 21/02/19 respectively.

REPORT ON FACULTY DEVELOPMENT PROGRAMME **ORGANISED BY ENTERPRISE DEVELOPMENT INSTITUTE** **(EDI) FROM 03-12-2018 TO 14-12-2018**

Faculty Development Programme was organized by Enterprise Development Institute, Salt Lake from 03-12-2018 to 14-12-2018. The program was inaugurated by Dr. G.P. Sarkar- Chairman, EDI, Mr. M.N. Maity- Director, EDI, Mr. DebabrataMitra – Dy. Director (G & C), MSME-Development Institute and Mr. BimalKar- Program Coordinator, EDI. The total no of participants were twenty from different technical institutes, general colleges and also from NGOs.

In the Inaugural session Mr. M.N. Maity in his welcome address explained the role and activities of EDI. Mr. DebabrataMitra in his speech described the role and functions of MSME. Dr. G.P. Sarkar encouraged all the participants through his deliberations that they should believe that the entrepreneurs are not only born but can also be made by proper guidance and motivation and advised all participants that they should act as facilitator in their respective institute/ organization after successfully completion of the FDP. As an example of a successful entrepreneur he described his own entrepreneurial journey of 50 years. It was way back in 1969, that Dr.G.P.Sarkar first ventured into the healthcare business. From the very inception, his innovative spirit and pioneering efforts let him to look beyond the obvious: to delve deep into the root cause of human ailments. It was therefore no surprise that he developed and introduced remedies whose effectiveness and popularity have now become legendary. What started as a small business has four decades later, growth into a pharmaceutical conglomerate – a virtual ‘Medicity’ – known as the Dr.Sarkar Allen Group. This Group is renowned business entity today, one that has spawned brands which have become household names in India and beyond. The inaugural session ended with nice vote of thanks by MrBimalKar.

The summary of the different sessions in two weeks program are given below:

Date	Session Description	Faculty / Speaker	Major Learnings
03-12-18 Session 2	New Initiatives for MSME	Mr. DebabrataMitra Dy. Director (G & C) MSME Development Institute	Role of MSME in developing our country w.r.t GDP and manufacturing products. Different govt. schemes assisting for setting up MSMEs and their detailed procedure.
03-12-18 Session 3	Teaching Entrepreneurship	Prof. AnjanRaichaudhuri Visiting Professor Centre of Entrepreneurship IIM Calcutta	10 suggestions like know “the soil for planting the seed”, ‘learning by doing” etc. about entrepreneurship education

A Report on PMYUVA Entrepreneurship Workshop by Techno India Group

It was a great opportunity for those who are been already involved in startups or those who want to be their own boss in future. Techno India group organized a workshop on Entrepreneurship - progress and development. We are the students of Techno International Newtown and we were very much encouraged after knowing that again our college is organizing something related to Entrepreneurship. We three were present from Mechanical Department, I, Rishav Sadhu (4th Year) and the rest two students are Maheswar Banerjee (2nd Year) and Ankit Kumar Gupta (2nd Year). It was a 4 days workshop in two weeks. In the very first class, we were doing lots of task like, how much entrepreneurial skill that we have and in which kind of mindset we belong to. Two instructors were from E-Cell of IIT Kharagpur and one from Ministry of Skill and Entrepreneurship Development. We were taught, how to grow a business from scratch and lots of business terms. It was a very interesting class and we enjoyed a lot there. All the sessions were filled up with video sessions and interacting activities. The instructors were so much friendly to the students that helped us to gain more knowledge while questioning. Each of the days was a very much interesting that no one felt boring. To make this workshop more attractive, the instructors created some groups of unknown students (chosen randomly). So we got a chance to know some of new students from various colleges of Techno India. We rate this workshop 9.5 out of 10. We enjoyed, we learned and we hope again our college will give us another opportunity to attend this type of workshops in future.

Maheswar Banerjee (ME-2184)

Rishav Sadhu

Ankit Kumar Gupta - ME-2,119.

ABSTRACT

A one-day workshop on **Entrepreneurs' Mentoring Workshop and Panel discussion on value creation through Innovation Engineering and Entrepreneurship – A multi-stakeholder approach** was held at Rajendra Mishra School of Engineering Entrepreneurship, IIT Kharagpur on 15th November, 2018. The topics covered were 'How an Entrepreneur should start', 'Why Start-ups fails', 'Precautions to avoid failure', 'How to get financed', 'How to develop ideas' and 'How should we form start-up team'. Entrepreneurship is not a destination; it's a journey. On this journey, successful entrepreneurs don't have an expectation of "arriving" to some finish line. If you do have that expectation, you won't continue to push yourself to step outside of your comfort and grow. You won't seek out the things that truly help your business experience explosive results because all those things require you stretching yourself. On any journey, you have times of joy and more than a few setbacks. During the times of joy, you feel like you can accomplish anything. It gives you the strength and motivation to continue to put in the work that helps your business. During the hard times, negative feelings and emotions can easily take over. Before you know it, you're feeling sorry for yourself and you turn to your familiar coping mechanism. To support new start up IIT kharagpur provide a platform from where we can get financial support for our project PRISM is for budding students, professionals and common citizens interested in

innovation and having an implementable and commercially viable, novel innovation. An innovator of Indian nationality, interested in innovation is provided Grant –in-aid support by PRISM DSIR for prototype development and commercialization subject to completion of sanction of project which includes evaluations, technical and financial viability as well as commercially viable analysis. PRISM -DSIR also helps the innovators to get acquainted with the fundamentals of patenting as well as technical and strategic assistance in idea development.

INTRODUCTION

Details of getting funding from PRISM

PRISM Phase-I

Category – I: Proofs of Concepts/ Prototypes/ Models (Total Project Cost : Rs. 5 Lakh)

Maximum support may be limited to Rs 2 lakh or 90% of the total project cost whichever is lower.

Any Indian citizen including student innovator can avail support to develop their novel idea into demonstrable models/prototypes.

Category – II: Fabrication of working model/process know-how/ testing and trial/ patenting/ technology transfer etc. (Innovation Incubation) (Total Project Cost : Rs. 5 Lakh up to 35 lakh)

Maximum support may be limited to 20.00 lakh or 90% of total project cost whichever is lower.

Any Indian citizen having innovative idea.

PRISM Phase – II (Enterprise Incubation) (Total Project Cost : up to Rs. 100 Lakh)

Maximum support may be up to 50.00 lakh limited to 50% of the total project cost. The support may be provided for scaling up technology based innovations, including patenting/ design registration/ trademark registry/ technology transfer to develop a marketable product/ process towards enterprise creation.

Successful PRISM innovators or innovators who have successfully demonstrated proof of concept with the support of other government institutions/ agency.

PRISM - R& D Proposals (Total Project Cost : up to Rs. 100 Lakh)

Maximum support may be up to 50.00 lakh, limited to 50% of the total project cost for developing technology solutions aimed at helping MSME clusters. Any R&D institute/ autonomous institutions/ public funded laboratories/ academic institutes and so on.

Entrepreneurs need to follow some basic principles which would serve as guidelines and beacons for their success. Based on the research conducted over a period of three years and by interviewing more than 150 entrepreneurs, noted author and management expert, Bill Murphy came out with a book about entrepreneurship which was published by Harvard Business School. This article is based on the insights from this book and lists five principles that should serve as markers for both aspiring as well as existing entrepreneurs. One of the insights from this research is that most of these principles can be learned from experience and the process of starting a venture is an educational experience in itself. With this introduction,

TECHNO INTERNATIONAL NEW TOWN

(Formerly known as Techno India College of Technology)

Contact: +91-33-2324-2050/2090/2091 • <https://tint.edu.in> • info@tint.edu.in

we can now move on to the five principles of entrepreneurship as put forward by Bill Murphy.

It is always not the case that Entrepreneurs should make money fast and this should not be the goal

It is important for entrepreneurs to test the waters before launching a new venture. This means that one must commit oneself to the ideal of entrepreneurship and try out new business models, and new forms and paradigms of transacting business. In other words, the entrepreneurs must not be in a hurry to make profits from the word go and instead, understand what entrepreneurship is all about. For instance, it is better to come up with a game changing idea instead of pursuing leads that are dead ends which means that entrepreneurs must be ready to be in the game for the long haul.

It is always better to find the right opportunity even if it takes time instead of chasing mirages

This principle translates into waiting for the right opportunity and at the same time, seizing the moment when the opportunity arises. Of course, we are not saying that entrepreneurs ought to wait forever for the right opportunity. Rather, the intention here is that entrepreneurs must ensure that they have the necessary foundation in place to capitalize on the opportunity and also must have an idea and a business model that would create opportunities in case they are finding it difficult to get the venture going. For instance, as the clichés about how opportunity knocks only once as well as if you do not find an opportunity, build a door so that you are ready when the opportunity arises can be taken to mean that entrepreneurs must both create opportunities as well as seize them when they arise. Another analogy would be that entrepreneurs must be ready with the fishing rods and the baits when they go fishing and if the river, sea, or lake is saturated, they must fish in waters that are “blue oceans” meaning that they must create new markets for themselves.

Invest in people and build successful teams

As with the previous principle, entrepreneurs must ensure that they have the right team in place before they start the venture. After all, unless there is a team in place, the venture would not be able to capitalize on the opportunities. Further, entrepreneurs must ensure that the team is passionate, committed, and most importantly, shares the vision and mission of the founders. In other words, unless there is a buy-in from the team with the founder's ideas, the venture would flounder. Apart from these, getting the right people who have focus, drive, loyalty, determination, courage, and consistency in addition to being motivated and creative are some requirements that the entrepreneurs can ill afford to ignore.

It is always not enough to have everything in place. Execution and Delivery are what matters

Have you ever got the feeling that a salesperson is engaging you in glib talk wherein he or she is trying to convince you to buy a product which is untested? Similarly, all talk and no execution would lead the new venture nowhere and hence, it is important for entrepreneurs to ensure that they walk the talk and deliver on their promises.

Indeed, it is not enough to have a game changing idea and a great team in place unless the entrepreneur knows the art of execution. As happened during the Dotcom boom, there were many startups with great ideas and equally great teams that promised the moon for anyone

TECHNO INTERNATIONAL NEW TOWN

(Formerly known as Techno India College of Technology)

willing to listen. However, the fact that they failed in their businesses was mainly due to the gap between ideas and execution.

Therefore, the entrepreneur has to be a leader who walks the talk and understands the meaning of execution. Further, leadership means that entrepreneurs must not be afraid of failure and must instead, turn adversity into triumph and transform failure into a stepping stone for success.

Indeed, great entrepreneurs are those who are willing to trust their instincts and intuition and back themselves up when the venture is yet to fructify or even making losses. In other words, if you think that you have a great idea and are executing it well with the right team, you need to persist and keep going even when the conventional wisdom says that you are getting it wrong.

Entrepreneurs must be self actualizing visionaries

Ask any successful entrepreneur and they would say that while money is indeed important and profits are indeed essential, it is always not about the money or that making profits is the only thing that matters. Instead, great entrepreneurship is all about heeding the inner voice, creating jobs and opportunities for others, be conscious of societal prosperity due to the venture instead of having a me, myself only attitude, and most importantly, translate their vision into success.

For instance, there are many of us who have heard or come across individuals who gave up cushy jobs to find their passions and to follow and chase their dreams. Therefore, successful entrepreneurship is all about making a difference to the world and becoming a social messiah who would transform societies with his or her ventures.

CONCLUSION

Finally, entrepreneurship must be seen as a starting point to transform oneself and in the process become a change agent. For this to happen, the entrepreneur must be both be able to fulfill environmental, social, and economic expectations from the larger system and at the same time, must drive themselves in the pursuit of their dreams. Indeed, the balance between inner aspirations and external expectations is the most important determinant for success.

Dated: 11.02.2019

Minutes of the Meeting held in the Conference Room on 08/02/2019

The following resolutions were adopted in the meeting

1. All members approved the minutes of the last meeting held on 19th August 2018.
2. It was finalized that Electrical Engineering department will be organised the program under the leadership of Prof. Sushma Verma ED cell member under the guidance of Prof. Abhijit Patra – Convener, ED Cell
3. Detailed discussion were held on the proposals given by Mr. Ayan Kar – Director, Entrepreneursface.com and it was finalized by the Director that Mr Kar will be appointed as Guest advisor and he will mentoring the interested students for converting of ideas to commercially viable organization.
4. Prof. Abhijit Patra informed that one 4th year student of ME Department, Rishav Sadhu has started a new venture – “Smart Pay”. It is based on an innovative concept of online recharge portal, online electricity & DTH bill payment. Also they served the online PAN card service. He has taken this initiative on January, 2019 and now he has more than 300+ retailer those are happily working with “Smart Pay”. Smart Pay focuses on – “Retailers profit in a higher range”, “Customer satisfaction” & “Support”. Smart Pay claims to be the first and foremost maximum commission providing company in West Bengal.

The meeting ended with vote of thanks to the Chair.
